

OMAR NOURI

SENIOR DATA SCIENTIST / AI ENGINEER

Birth date: March 26th, 1998

E-mail : omar.nouri98@gmail.com

Location: Tangier , Morocco | **Open to relocation:** France

Mobile phone: +212 6 20 21 79 30

EDUCATION

SEP 2021	University of Abdelmalek Essaadi - ENSA Tangier, MOROCCO State Engineer Diploma (MSc), Computer Engineering - Information Systems
Jun 2015	AL Amana Institute TANGIER, MOROCCO Baccalaureate Diploma, Mathematical Sciences, Option : B

PROFESSIONAL EXPERIENCE

Jan 2024 –Present	DXC technology Rabat – Morocco <u><i>Data Scientist Machine Learning Engineer – Hybrid</i></u> Led the identification and deployment of Large Language Models (LLMs) and generative AI use cases in insurance, improving decision-making and customer interactions. Enhanced RAG system performance by refining reranking algorithms, implementing hybrid search, optimizing code, and conducting prompt engineering, achieving a 10 -second response time reduction and 20% accuracy boost. Developed POCs related to the current agentic approach. Developed an Image and Graph extraction feature using LLMs. Researched and implemented agentic approach for DXC solution Designed and implemented an Excel parsing and embedding feature. Conducted ongoing research on LLM and GPT advancements, integrating state-of-the-art techniques to maintain a competitive edge in AI-driven insurance solutions
Oct 2021 – Dec 2023	Digital Place Tangier – Morocco <u><i>Data Scientist – On site</i></u> Led and implemented multiple data-driven projects, introducing cutting-edge technologies while winning a fintech challenge for a Darija-based assistant Built and deployed advanced NLP models achieving 95% accuracy for French and Arabic transcription, benefiting 10K+ banking app users Designed robust data extraction frameworks and pipelines that processed 500,000+ Moroccan job postings, with automated workflows using Airflow Leveraged transformer models (BERT, GPT, LLaMA) to create customized language understanding solutions for document processing Represented company products at official events (e.g., GITEX) while training clients on solutions and creating automated visualization dashboards with PowerBI

**Mar 2021 – Sept
2021**

Digital Place Tangier – Morocco

Intern – On site

Conception Developed and implemented the 1st version of a data scraping and analysis pipelines of Morocco based job boards for 100,000+ Moroccan job

Designed and optimized a robust database structure to efficiently store and manage the job postings data and the extracted insights.

Utilized Collaborated with cross-functional teams to translate business requirements into data- driven solutions and ensure the relevance and impact of the analysis outputs.

KEY PROJECTS

LLM Based AI assistant at DXC technology Rabat 2024-2025

Using cutting edge LLM technology I took part in building a Rag implementation for Insurance Based documents that helps customers answers several questions related to client-based info only

Darija Smart Banking Assistant 2023

In the context of Fintech Catalyst Project, Finetuned the Wav2vec Meta model with Darija models and implemented action- based banking assistant using Rasa framework.

Reinforce Startup Search engine with AI 2022

Finetuned an RNN attention-based Model using startup description datasets allowing to generate Keywords and recommendation for Startup search engine improving search results.

Prodige (Mouakaba)

A platform allowing to follow the latest job market trends and insight in Morocco by setting up multiple Automated Data scraping and processing pipelines and using multiple AI models to classify, categorize and extract skills from job offers generating insightful graphs using PowerBi.

TECHNICAL SKILLS

Languages	Python, JavaScript, SQL
Methodologies	Data Mining, Statistical Modeling, Data Visualization, Machine learning, Deep Learning, Data Mining, NLP, Virtualization (Docker)
Libraries/Framework	NumPy, Pandas, Matplotlib, Seaborn, Scikit-Learn, NLTK, Beautiful Soup, Scikit-Learn, Keras, Flask, TensorFlow, PyTorch, Hugging Face Transformers, spaCy, Langchain, RASA
Data Processing	Data Cleaning, Data Transformation, Data Integration, Data Pipelines
ETL & BI	KNIME, Pentaho, Talend Open Studio, Tableau, PowerBI, QlikView, MS Excel
Neural Networks	RNN, LSTM, GRU, CNN, GNN, Transformers, Attention Mechanisms, Wav2vc
NLP Concepts	Text Classification, Sentiment Analysis, Named Entity Recognition, Translation, Generation, Summarization, Relation Extraction, Semantic Parsing, Language Modeling, Seq2seq
ML Concepts	Regression, Classification, Clustering, Time Series, Ensembles, Reinforcement Learning, Transfer Learning, Meta-Learning, Online Learning, Active Learning, Recommender Systems
Databases & Infrastructure	MySQL, PostgreSQL, SQLite, Neo4j, MongoDB, Docker, AWS, GCP, Apache Airflow
Versioning	Git, GitHub, Bitbucket, Bitbucket Pipelines, Docstrings.

LANGUAGE SKILLS

Arabic : Native Language

French : Professional Proficiency – DALF C1

English : Professional Proficiency
